Pure Plasma Pen

Skin Tightening treatment is a revolutionary beauty procedure helping women considerably reduce wrinkles and lines. It is non-surgical and non-invasive with instant results which last for up to 5 years (depending on the treatment). A small handheld device is used to provide this safe treatment of Plasma Pen skin tightening for a variety of skin concerns. The amazing and extremely accurate pen works by creating a pulse from the probe onto the skin, which then causes the area to contract. Only specific areas of the epidermis can be treated, so the surrounding skin is not affected and there is also no risk of damaging deeper layers of the skin.

MICRO NEEDLING

Micro-needling is an advanced skin-needling procedure that stimulates the skin to regenerate and repair itself safely and naturally. Micro-needles are able to part the pores of the top layer of the skin without damaging it. This naturally stimulates collagen and elastin production in the skin and is safe to use on different areas of the body for smoother, brighter, healthier and younger looking skin. This is a simple and safe treatment.
